NewTaxi Rider API's

iOS & Android

Table of Contents

Introduction

In this document we explained about the list of Service API's used in NewTaxi Rider application with the sample JSON Response.

Response Status for all Services

● All the services will return **status_code** and **success_message** in response.

● **status_code** "0" means, there is an error/validation failure at backend

● **success_message** will have the reason for error and success .

User Login

● Success response for login gives user profile details.

Service URL

http://newtaxi.seentechs.com/api/login?mobile_number=98765432107&country_code=91&user_type=rider&password=123456&device_type=2&device_id=eQcM-

Sample JSON Response
```
    {

            "status_message": "Request send successfully",

            "status_code": "1"

    }
```

Driver Accept Request Push Notification

● When driver accepting the rider's request.

Sample APNS Response
```
    {
```

```
    "aps": {

      "alert" : "Push Notification!",

      "sound" : "default",

     }

    "accept_request": {

      "trip_id" : "1",

     }

    }
```

Arrive Now Push Notification

● When driver arrived the pickup location. The notification will be sent to riders.

Sample APNS Response
```
    {

      "aps": {

       "alert" : "Push Notification!",

       "sound" : "default",

      }

     "arrive_now": {

       "trip_id" : "1",

      }

     }
```

Begin Trip Push Notification

● When the trip starts from the pickup location.

Sample APNS Response
```
    {

      "aps": {

       "alert" : "Push Notification!",
```

```
      "sound" : "default",

    }

   "begin_trip": {

     "trip_id" : "1",

    }

  }
```

End Trip Push Notification

● When driver completed the trip after reaching the destination successfully.

Sample APNS Response

```
   {

    "aps": {

      "alert" : "Push Notification!",

      "sound" : "default",

    }

   "end_trip": {

      "driver_thumb_image" : "http://newtaxi.seentechs.com/images/user.jpeg",
     "trip_id" : "1",

    }

  }
```

Cancel Trip Push Notification

● When rider cancelled the current trip.

Sample APNS Response

```
   {

    "aps": {

      "alert" : "Push Notification!",

      "sound" : "default",

    }
```

```
            "cancel_trip": { }

        }
```

Cash Collected

● When your trip is using cash then driver confirm cash collected

Sample APNS Response

```
        {

            custom {

                "trip_payment": {

                    "status": "Cash Collected"

                }

            }

        }
```

After Payment

● Once payment completed, we should pass the pay key to server.

Service URL

http://newtaxi.seentechs.com/api/after_payment?paykey=AP-0W302351N4180301G&trip_id=1&token=eyJ0eXAiOiJKV1QiLCJhbGciOiJIUzI1NiJ9.eyJzdWIiOjEwMDAxLCJpc3MiOiJodHRwOi8vZGVtby50cmlvYW5nbGUuY29tL3ViZXIvcHVibGljL2FwaS9sb2dpbiIsImlhdCI6MTQ5NzI2Njk2MCwiZXhwIjoxNDk5ODU4OTYwLCJuYmYiOjE0OTcyNjY5NjAsImp0aSI6InF0NUVIV2NjRDRNYXFQMkkkifQ.pN_Y64JoAysJl-JTQ5oAoRJAImdHmiKbMmQdprm3CQ8

Sample JSON Response

```

    }

Update device Token

● Updating device token for getting push notification

Service URL

http://newtaxi.seentechs.com/api/get_rider_trips?user_type=rider&token=token

Sample JSON Response

    {

        "status_message": "Updated Successfully",

        "status_code": "1"

    }

Update Rider Location

● Updating rider location while login

Service URL

http://newtaxi.seentechs.com/api/updateriderlocation?latitude=9.924428172013808&longitude=78.137
10015267134&user_type=rider&token=token

Sample JSON Response

    {

        "status_message": "Updated Successfully",

        "status_code": "1"

    }

Add or Update Wallet Amount

● Add or update wallet amount

Service URL

http://newtaxi.seentechs.com/api/add_wallet?paykey=PAY4Y186443G14659019LIKSY5I&amount=10&token=token

Sample JSON Response

```
{

        "status_message": "Amount Added Successfully",

        "status_code": "1",

        "wallet_amount": 30

}
```

Check Promo Code

● Check promo code and get user promo code details

Service URL

http://newtaxi.seentechs.com/api/add_promo_code?&code=123456&token=token

Sample JSON Response

```
{

        "status_code": "1",

        "status_message": "Promotion Applied Successfully",

        "promo_details": [{

                "id": 3,

                "amount": 10,

                "code": "123456",

                "expire_date": "25-11-2022"

        }]

}
```

Logout

● Logout from app.

Service URL

Sample JSON Response

```
{

        "status_message": "Logout Successfully",

        "status_code": "1"

}
```

Get Rider Profile

● Get rider profile information such as first name, last name, profile image etc.

Service URL

Sample JSON Response

```
{

        "status_message": "Success",

        "status_code": "1",

        "first_name": "",

        "last_name": "",

        "mobile_number": "", "country_code":

        "91",

        "email_id": "dfdsf@dfd.comfd",

        "profile_image": "http://newtaxi.seentechs.com/images\/users\/user.jpeg",

        "home": "",

        "work": "Thika, Road Mall, Kenya",

        "currency_code": "USD",

        "currency_symbol": "$",
```

```
                "trip_status": ""

        }
```

Get Currency list

● Get the list of currency code and symbol

Service URL

http://newtaxi.seentechs.com/api/currency_list?token=token

Sample JSON Response

```
{

        "success_message": "Currency Details Listed Successfully",

        "status_code": "1",

        "currency_list": [{

                "code": "CHF",

                "symbol": "&euro;"

        }, {

                "code": "CNY",

                "symbol": "&#165;"

        }, {

                "code": "CZK",

                "symbol": "K&#269;"

        }, {

                "code": "THB",

                "symbol": "&#3647;"

        }, {

                "code": "TWD",

                "symbol": "&#36;"

        }, {

                "code": "USD",
```

```
                    "symbol": "$"

        }, {

                    "code": "VND",

                    "symbol": "&#8363;"

        }]

    }
```

Update user currency

● Updates the currency for the user

Service URL

http://newtaxi.seentechs.com/api/update_user_currency?currency_code=IDR&token=token

Sample JSON Response

```
    {

            "status_message": "Updated Successfully",

            "status_code": "1",

            "wallet_amount": 0

    }
```
